## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims **34-35, 38-39, 49-56, 59-60, 70-75, 97-99, and 101-106** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The limitation “**laparoscopic insufflator**” is not described in the specification of this application and/or the specification of U.S. Patent No. 6,068,609, incorporated by reference according to the introduction section of the specification of this application. The examiner respectfully invites applicant to provide evidence to support the limitation in question. In view of this discrepancy, the examiner of record will maintain the pending rejections.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claim 34** is rejected under 35 U.S.C. 102(b) as being anticipated by **Rusz, et al., (4,770,168)**. For the details of this rejection, please refer to the office action dated May 19, 2005.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

**Claims 34-35, 38-39, 49-56, 59-60, 70-75, 97-99, and 101-106** rejected under 35 U.S.C. 103(a) as being unpatentable over **Bartels, et al., (4621632)** in view of **Daniell, et al., (6050260)**, and further in view of **Rusz, et al.** For the details of this rejection, please refer to the office action dated May 19, 2005.
